Newsletter

SPECIAL EDITION, 2024

FROM THE PRINCIPAL'S DESK

Talk of transformation...marvelous transformation, for that matter! That's exactly what has happened at Logos Christian School – Limuru, thanks to our supporters and friends. Who ever imagined a new perimeter fence, a brand-new basketball court – and modern, movable goalposts on a scenic court?

Besides, talk of aesthetic enhancement...You will be greeted by brilliant colours on our retainer wall next time you walk into our administration/ tuition block!

The adjectives “*secure*” and “*safe*” dart across my mind whenever I gaze – quite regularly - at the newly-built chain link fence covering our perimeter boundary - finally keeping learners, staff and our property safe...and bad guys out!

Kick out abstract ideas, kill monotony, replace them with technology. The outcome is... FUN! And, hopefully, better output from teachers and learners.

Our newest addition – a projector and a smart, interactive board that literally turns any surface into a smart wall...Technology has come in handy for us!

This newsletter highlights these recent achievements for your consumption and for the glory of God. It would be unfair to conclude without thanking the team that visited the school in June, and in two short weeks, left these indelible marks as narrated above.

A hearty THANK YOU to Rick and Diana Wilson, Phil Vidrine, Daniel Irvin, Channing Warren, Cheyenne Warren, Amy and Dan Withers, John and Dale Lang, Ed and Shana Brooks, Phillip Barry... and the team leader, Jared Vidrine!...great vessels of honour, unforgettable men and women.

May God keep you eternally blessed!

Painting

I can't wait to make Logos – Limuru a spectacle to behold, one stroke of a brush after another!

Fence

A fancy and efficient perimeter fence, don't you think so? All safe and secure!

Basketball court

How it came up...the state-of-the-art multi-purpose court (or should I say arena?) - surely, this puts us on a higher pedestal, doesn't it?

....and, of course, time for interacting with the word of God through crafts.

Teaching/ learning will never be the same again, thanks to this technological marvel. No more need of chalkboards...don't you agree?

NEW SCHOLAR

...and here comes Precious Keyenze in Grade 5, one of the newest entrants in the scholarship at Logos Limuru.

She comes from a family of 4 siblings and a single mother. Born on December 29th, 2012, she enjoys helping at her local church early every Sunday morning by wiping benches in readiness for services - voluntarily!

Precious loves Science, plays football and is already an active member of the Book Club! And, oh! For her future plans, this passionate soul can't wait to help in treating the sick...as a nurse. What a dream!

Thank
you

... "All this is for your benefit, so that the grace that is reaching more and more people may cause thanksgiving to overflow to the glory of God.

2 CORINTHIANS 4:15

2024 TARGETS

We are trusting God for 100 scholarships in January, 2024.

10 down, 90 to go!

Would you join us in this mission?
