Newsletter

APRIL - MAY 2024 EDITION

FROM THE PRINCIPAL'S DESK

At Logos Christian School – Limuru we have purposed to involve learners in a Vacation Bible School (VBS) during every school holiday.

April 2024 was no exception...and what an impactful one it was! From where I sit, engaging children in a well-organized, fun-filled, thematic VBS is a sure way of teaching God's word.

The Spirit-guided devotions (led by children!), classroom sessions, crafts, added to games, will be etched in our collective memories for such a long time...this is from parents' and learners' feedback. The helmet of salvation and the belt of truth as described by Paul in *Ephesians 6:10-17* formed the basis of activities.

Other life skills and values were brought out...teamwork, for instance.

I can't wait for the next holiday for a continuation of The Armour Of God!

Please feel welcome to sample the pictorial memories of the entire event in this newsletter as captured then.

My prayer is that God will empower us to keep guiding the little guys towards Jesus and to truly live out our motto, Educating for Life and Eternity and fulfill God's purpose for our existence.

Thuku Ng'ang'a
Principal

Let's study the word of God...

How about some fun together?

Teamwork at its best!

As we praise the Lord...

Jane Wairimu

Meet Jane Wairimu, a student in Grade 7. She joined Logos at the age of six. Seven years later, look whom we've got now! A confident lass who relishes reading quotes during the school assembly every Friday. During the VBS in April, she stepped out onto the runway and outdid herself in modelling...a turnaround in her hitherto withdrawn demeanor.

Besides, she has developed a deep love for lawn tennis; watch this space for the next Serena Williams!

The third-born child in her family of four siblings, Jane is thrilled by watching TV and some movies plus cartoons. In her church, she enjoys making song presentations and dancing during services. She looks forward to becoming a police officer in order to, in her own words, help people in trouble. Criminals should watch out, for their days are surely numbered...

A combination of Mathematics, Social Studies, Agriculture and PE is her forte in school. I wish Jane nothing but the very best in her life.

Lewis Njoroge

...And here comes Lewis Njoroge; a diminutive but easy-going, vibrant and charming lad who turns eleven in October. Lewis has a knack for Mathematics, Science and Agriculture. Talking of Agriculture, this young boy grows some cabbage, coriander and spinach with tender care on a tiny patch at home.

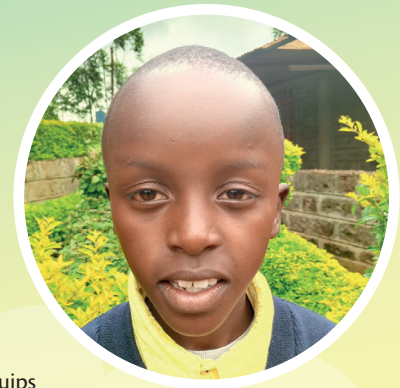

That's unlike most boys of his age who are glued to TV and games all day long...and that's not all! Lewis rears rabbits at home. *"I look forward to growing my herd to hundreds,"* he quips with glistening eyes. We call that passion, don't we? Listen to this...

has improved tremendously in academics. His spoken English has risen to an unbelievable level since he joined Logos less than a year ago!" his father opened up recently with immense pride.

...And that is only the beginning. In Lewis' Grade Six class, his infectious smile and easy-going nature has endeared him to his peers in an amazing way. Who wouldn't fall for this amiable and sociable little guy's ways?

Lewis is not only a football enthusiast but also keen on adventure; his desire to become a tour guide is, therefore, natural... Right? Go, Lewis, go!

I see a brilliant future ahead of you, Lewis, and can't wait for it!

"Lewis

Glad in the flood situation!

The last few months have seen Kenya receive higher than average rainfall; devastating floods is the outcome as evidenced across the country.

It was so widespread that opening of schools for Term Two was delayed for two weeks! Imagine that!

Apart from damaged roads and other infrastructure, some schools were engulfed in flood water and, needless to say, facilities rendered unusable. Don't mention the chilling risk of diseases like cholera!

I'm glad that God, by His mercies, spared Logos Christian School – Limuru. All our students, staff and parents are safe...plus the school itself. Glory to His holy name!

Psalm 124: 4 *If the Lord had not been on our side,) ...the flood would have engulfed us, the torrent would have swept over us, the raging waters would have swept us away (NIV).*
